Full Stack Web Developer with expertise in JavaScript, React.js, and asynchronous programming using `async/await`. Built high-performance applications integrating REST APIs, reducing data fetch latency by up to 40% and ensuring smooth user experiences.

Experienced in developing scalable, responsive web solutions and deploying production-ready projects with CI/CD pipelines.

EDUCATION

Parul University <i>Integrated Master Of Computer Application</i>	Vadodara,Gujrat
	2023-2026

PROJECTS

Tourist Management System | PHP, MySQL

- Designed and developed a full-stack Tourist Management System enabling management of tour packages, bookings, users, and destinations, reducing manual record handling by 70% and improving operational efficiency.
- Implemented secure authentication, dynamic booking modules, and an admin dashboard with real-time CRUD operations using phpMyAdmin for efficient database management.
- Optimized backend logic and database queries, improving performance and achieving faster page load times and smoother user workflows.

Weather Application | JavaScript

- Developed a real-time weather application integrating external REST APIs using `async/await`, reducing data fetch latency by 40% and ensuring seamless UI updates.
- Applied asynchronous JavaScript techniques to handle concurrent API requests efficiently, improving application performance and reliability.

TECHNICAL SKILLS

Languages: HTML5 ,CSS3 , JavaScript , PHP

Frameworks: React.js, Node.js, Tailwind, Bootstrap

Developer Tools: VS Code, Thunderclient

Version Control: Git, GitHub
